

Strategic Plan

The STHF Strategic Plan is a living document that is revised regularly by the active board of directors through annual planning sessions. The strategic outcomes at the forefront for the upcoming year consist of development of the athlete at all levels, further development of officials and continuing to promote and market team handball throughout the province.

If you have any concerns or thoughts on how we can better our organization, league, sport or any other feedback, feel free to contact the Executive Director at info@saskhandball.com or the Board President at saskhandball@hotmail.com
